

ENROLL TODAY!

Enrollment open
now for grades 7
and above

Fostering global
connections for
adolescent learners.

Embracing international
education across 8 time
zones at Bridgemont!

Bridgemont International School has been
designed from the ground up to blend
authentic Montessori practice with:

A Montessori
understanding of
teenagers'
developmental
needs

A heavy focus on
collaboration and
entrepreneurship, online
learning blended with
real-world experiences

THE BRIDGEMONT DIFFERENCE.

Over the years, we noticed the struggles many schools faced while adapting to online learning. While there have been some notable successes, many schools have been caught up in old methods and ways of thinking. Watching this, the education leaders from The Center for Guided Montessori Studies have created a new dynamic paradigm for online adolescent education.

BRIDGEMONT
INTERNATIONAL SCHOOL

THE EXPERIENCE

OUR PROGRAMS

The core of our program is the Montessori educational syllabus, which consists of integrated academic components in three overarching areas:

Self-Expression

Academic &
Social Growth

Preparation for
Adult Life

Within these recognized areas, Bridgemont offers students inter-disciplinary coursework in a variety of academic subjects, experiential learning and in-the-field experiences, a range of seminars and collaborative learning projects, training in organization, and personal responsibility.

✔ MONTESSORI ONLINE

Students work with the same team of Montessori guides (teachers) all year. These teachers coordinate student learning throughout the school day and guide them through the curriculum. Their guides come to know their students individually and lead them through their academic journey in preparation for both university, careers, and life.

✔ PRACTICAL LIFE

At Bridgemont International School, we embrace the digital age within our Montessori framework, building digital citizenship skills and preparing adolescents to take their place as global citizens of the world.

- 1) We place a strong emphasis on orientation, ensuring a seamless transition by guiding students through our essential systems.
- 2) We uphold Montessori principles with consistent, research-based practices that empower our students to navigate the online world responsibly.
- 3) We provide diverse online certification opportunities, equipping students with practical, college- and job-ready skills.

✔ 2024-2025 TUITION
